Dear [Redacted]

25X1

Forwarded herewith are checks covering the travel vouchers of the Reseda pioneers, but not including payment of per diem after arrival at Reseda. Claim for this per diem was tentatively disallowed pending receipt of further information, and vouchers were processed without it in order to avoid delaying the checks further.

The next step is for you to submit a reclaim of the disallowed per diem on form 1012, accompanied by a copy of the audit difference statement and a separate statement giving any information not already submitted in support of the claim, with a request that if CIA cannot pay the claim it be forwarded for General Accounting Office action. Supporting statements should be made by each claimant and should not be identical.

I am sorry that I cannot offer further suggestions as to the nature of additional supporting information you might submit and cannot convey to you any assurance that the claims will finally be honored. I suggest that you prepare statements in draft form and ask Colonel White to give you his advice on them on his return trip. Believe me, we are doing everything possible to avoid an injustice to you who have pioneered the project for us.

Sincerely,

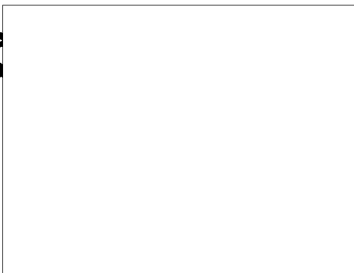

This document part of classified integrated file. NAME CHECK required prior to individual classification action
